

New Timing Shack!

Clem Eggert, board member and ski parent, spearheaded this project from start to finish!

The club is looking forward to making use their newly built timing shack thanks to the support received from Seymour Windows, Breault painting, North Bay Welding Metal Fabrication , LaSalle Uniform, Gap construction, Coleman Concrete & West Ferris High school (SHSM construction).

Time keepers will not only enjoy a better view of the racers but this new shack will also provide much needed storage space for our equipment

Check it out at the bottom of the ski hill!
